A druggist at Wellsville puts a finishing touch to his ad. in the *Globe* which is very suggestive. It was, "No Liquors Sold."

Some good hustler can turn a few honest dollars by taking orders for a car load or so of Christmas trees. He can get one order at this office.

Mr. H. B. Adams, of Moran, and his little son, were pleasant callers at this office Monday. Mr. Adams will get the DAILY REGISTER hereafter.

Beggs' DIARRHEA BALSAM is a purely vegetable compound, and cures where all others fail. We keep it. C. B. Spencer & Co., north side square.

Wm. Nash and L. H. Wishard are attending a meeting of the board of directors of the Iola Manufacturing Company at Solomon City this week.

County Superintendent Billbe has just returned from a trip in the southwest part of the county. He speaks very highly of the schools in Little Sweden.

Nobody with a child in the house, who has ever tried the experiment of a home Christmas tree, will ever again let Christmas pass without one if he can buy, beg or borrow one.

The dancing club has received an invitation from the Chaute dancing club to dance at Chanute one week from tonight. The boys will meet tomorrow night and count their coin.

Eugene Ehrig has sold his farm implements and stock and moved to town. For the present he will make his home with his parents on South Washington avenue and will build in the spring.

Mr. A. L. Harmon tells us that his father-in-law, Mr. G. Chase, has bought a 34-acre fruit farm within the town site limits of Barton, Fla., a place of about 2500 people, and is much pleased with his new home.

Mr. E. E. Thompson, a brother of Mrs. J. A. Patton, is here from Grand Island, Neb., straightening up the accounts at the store. Mr. Thompson is an attorney and will no doubt get the tangle unraveled in a short time.

John Toggles and Frank Horville have given rein to their luxuriousness and fitted up an elegant room over Spencer's drug store, which they will call home. Those who have seen it pronounce it a perfect "nest."

Mr. and Mrs. Avis who live near Kansas City came down to Iola and will remain here about a month in order to use the Iola Mineral water. They were here about three years ago and Mr. Avis received great benefit from it. They will board at A. H. Brown's.

Friday evening, December 10, is the 21st anniversary of the organization of the Ladies Missionary Society of Presbyterian church of Iola and the event will be celebrated by a tea at the home of Mrs. Fulton. All are invited and a pleasant time may be anticipated.

Mr. C. A. Frouk, county clerk-elect, is in town this week learning the ropes of the office and making his living arrangements. He wants to bring his family to Iola provided he can find a suitable house. If that cannot be done he will build a house in the spring.

There are two typographical errors in the new telephone directory both as printed on the separate sheets and in the City Directory. Brigham & Munger's telephone number should be 7 and that of H. H. Whiteside should be 13. Mark the corrections now, before you forget it.

This office always likes to have a visit from John Manbeck, of Golden Valley. In the first place he always pays his subscription, and in the second place he is always as cheerful as a day in June. That kind of a man can mix up our exchanges and dabble in our paste pot any time he wants to.

One of the urgent and impatient creditors who hung around the Iola Feed Store Monday was Jess Smith, who had an itemized statement of the groans and sighs, the drops of sweat and the blisters on his hands caused him while shoveling thirty-five cents worth of earth around the building.

Pittsburg Headlight: Josiah Lanyon, of W. & J. Lanyon, came in from Iola last night where he has been for some time past looking after the erection of their new smelters. He says they will be ready and fire up in about ten days provided the inclement weather does not interfere too much with their calculations.

A break occurred at the brick yard the other day which will cause a shutdown of a week or two. The shaft which runs the crusher broke and as the crusher is the beginning point of the entire plant, operations are stopped all the way through. A new shaft has been sent for and work will be resumed as soon as possible.

G. A. VAN HALL, the leading druggist of Butler, Mo., writes: "We are having splendid success with Beggs Blood Purifier and Blood Maker. It is one of the best sellers we ever had and gives satisfaction to all who have tried it. We take pleasure in recommending it. C. B. Spencer & Co., North Side Square."

Every once in a while a lawyer earns his fee. Mr. A. H. Campbell took a forcible case for a Kansas City client the other day and the first thing he knew he ran up against 5 executors, 4 administrators, 3 receivers, 2 trustees, 3 corporations, one city and a dozen or fifteen individuals, all of whom had to be made defendants in the case.

A little trousers button lying frozen on the street crossing this morning was suggestive to us. What an example of duty performed quietly, anonymously and well, and of downfall through a broken thread in another's life, which casts you into a base oblivion. The times when you were all-important are now forgotten. Base ingratitude!

J. H. GREGG, of Dundee, Kan., writes: "My little daughter who has been troubled with Croup ever since she was three months old, I never found anything to relieve her until I tried Beggs Cherry Cough Syrup, and that has cured her entirely. I think it is the best Cough Syrup on the market. C. B. Spencer & Co., North Side Square."

Mrs. E. B. Christy, homeopathic physician, has opened an office up stairs in Mr. H. L. Henderson's new building. She is prepared to receive patients, who desire homeopathic treatment. Consultation will be free on each Thursday afternoon from 3 to 5 o'clock to all classes of patients. Country calls and night calls will be promptly answered.

Mr. J. Rosenberg, of the New York Store, recently received a letter addressed in a peculiar way. His name was spelled out, a picture of an eye followed by "ola" came next and below were pictures of a can of baking powder, of a can of baked beans and of a donkey. The mail clerk who deciphered the address Iola, Kansas, probably swore at the perpetrators.

Send copies of the REGISTER to your friends in the east. It will be much less trouble and expense to you than it would be to write a letter and much better for your friends. An exchange truly says: No man is true to Kansas when he does not mark the property items of his home paper and send copies to his friends in the east. This ought to be a part of every Kansan's religion.

Complaints have come to this office from people living near town of boys hunting on Sunday, going across country whooping and howling, disregarding all requests of property owners, destroying gates and fences and making themselves generally obnoxious. No one believes this is right and if the boys continue it, the injured parties may subject them to the law which bears on this point.

This (Friday) evening the Ladies Missionary Society of the Presbyterian church will celebrate its twentieth anniversary by giving a supper at the home of Mrs. A. J. Fulton. It was in this same house that the society held its first meeting and Mrs. L. L. Northrup, Mrs. Fulton, Mrs. Brewster, Mrs. Crowell, charter members and Mrs. Temple, of Yates Center, the first President, expect to be present.

R. J. Rose, of Ft. Scott, Deputy State Organizer for the Woodmen of the World, is here this week looking after the interests of the order and visiting his uncle, J. M. Williamson. In company with 14 others Mr. Rose is planning a trip to Kiondike next spring. The party is having a steamer built and will sail from San Francisco early in the spring, expecting to make the entire trip by water.

Rev. Edith Hill-Booker, of Pittsburg, Kansas, was appointed National Evangelist by the W. C. T. U. Conference which recently held a session at Toronto, Canada. There is a salary attached to the position besides the honor conferred. Rev. Booker is now holding a monster revival meeting at Oklahoma City, Ok., and there is no building in the city large enough to hold the people who desire to hear her. She was in Iola last winter and preached one of the finest sermons ever heard here.

Late yesterday evening what promised to be a serious accident was only averted by something approaching a miracle. The young son of Mr. G. Hawes was returning to his home in the southern part of town with a loaf of Otten's bread, when he fell in an unused well that had been carelessly left open. Neighbors hearing cries for help rushed to the spot and after some difficulty extricated the child from his perilous position. He would undoubtedly have been drowned but for the fact that he had a loaf of Otten's Cream Bread which was so light, as it always is, that it served to float him until help arrived.

We learned today of an attempted burglary at Humboldt the other day. A tramp, presumably drunk, tried to enter one of the windows of Dr. Flynn's house but the doctor heard him and got up to investigate. He got outside and charged the enemy in the rear as he was half way through the window. He grabbed the tramp and held him although the burglar threatened verbally to shoot him. Doc ordered the fellow off the premises and turned him loose. The next morning he went up town, found the tramp still there and had him arrested and brought to Iola. Yesterday he was taken to Humboldt and tried.

What might easily have been a disastrous fire was smothered in the cradle Sunday night. Mr. Esce came up town at 3 a. m. to start his baking operations and as he passed the door he noticed a blaze in Ling's restaurant. He looked closer and saw that the floor was ablaze, so he burst the door open and entered. A spittoon made of a tobacco caddy filled with saw dust had caught fire from a cigar or match and had burned through the bottom and ignited the floor. A bucket of water stopped proceedings quickly. Ed. Ling who sleeps up stairs feels quite joyous today for had the fire been unnoticed he would probably have had a close call.

Burr Conley returned last Monday from Coffeyville where he has been visiting his brother, Walter, the past two weeks. This knocks the wind out of the story that he had joined one of the show troupes that went through here several weeks ago. While gone Burr visited Burlington, Cherryvale, Parsons and Coffeyville and he says Iola has got the bugle on all of them. They are nearly all larger towns, but they do less business. And in regard to gas, they have no gas comparatively. The Coffeyville wells are wet holes and they have to shut down the brick plant once in a while to let gas enough accumulate to burn a kiln. In fact Burr says he felt this morning in Iola, like a somnambulist just awakened.

WHAT SHALL BABY BE?

Will His Life Be a Failure or Success—Happiness or Misery.

His parents Must Decide for Him. They Are Responsible.

Long before a baby comes into the world, his life problem begins. The laws of heredity are inflexible. "The sins of the fathers," their vices, their virtues, their weaknesses, their strength in all by-gone generations, find a focus in the little helpless tender morsel of flesh we call a baby.

He may draw characteristics from great grand-parents, he may resemble "papa" a very great deal, but the chief influence on his little life is due to his mother. Upon her bodily condition for the year before and following his birth, more depends than upon any thing else, or all else put together.

Under ordinary happy conditions, the advent of a baby means the real birth of love in the household. Cupid may take a nap when the baby comes—his work will be amply attended to. But there is another side to the picture. If the mother be sick and weak in a womanly way, nervous, dyspeptic, irritable and unhappy, the baby, mirror-like, reflects it. Thus is woman's greatest work rendered incomplete. Thus it is that she may make the world worse rather than better by her presence in it. Each generation ought to be better than the one preceding it. Each mother ought to do the best she knows how to make her children healthier and stronger and brighter and better and happier than she was. A child is "heir to all the ages" and a heritage of health is the greatest and best benefit within its mother's gift.

Nine women in ten are not well when they marry. Nine women in ten have some form of uterine trouble. Not ten in one hundred are perfectly well, perfectly strong, perfectly healthy and regular in a womanly way. A workman doesn't expect to

make a beautiful statue if his material is bad and his tools blunt. A stock breeder doesn't expect to raise thoroughbreds if his original stock is poor and weak and diseased. Why should human beings expect to produce worthy, healthy children if they themselves are unworthy and unhealthy.

So-called "female complaint" is looked upon as well-nigh incurable. Many a woman who is so troubled folds her hands and sits down hopelessly, helplessly to a life-time of misery and suffering. Frequently she does not go to a doctor, because she knows that he will insist on an examination, and most likely an abhorrent local treatment. She suffers in silence, growing worse and worse. She even bears children when she is in no condition even to bear the trials and burdens of every day life. It is not surprising if these children are sickly, peevish, fretful, cross and nervously wakeful. It is not surprising if they grow up into inferior boys and girls and mediocre men and women. The mother's health marks their whole lives and her health or ill-health rests wholly with herself. She can be healthy if she really wishes to be. Her troubles have had the highest of medical skill concentrated on them, and a remedy is offered that will give to her the perfect health she ought to have.

Nearly 30 years ago, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., discovered his now world famous "Favorite Prescription" for the cure of all forms of "female weakness" and disease. Thousands on thousands have been cured by it. Over 90,000 happy, grateful women have testified in writing over their signatures to the benefits derived from its use. Many women are mothers to-day because the "Favorite Prescription" made it possible for them. It is very rapid in its work. It relieves pain and inflammation almost immediately. It strengthens the diseased parts and restores their healthy, normal action. It should be taken in all cases where there is the faintest indication of disease or disorder and even though a woman be perfectly well, she should take it regularly during the entire period of gestation. It lessens the discomfort of this trying time and prepares her system for the final ordeal. It makes delivery comparatively easy and painless, and helps the health of both child and mother.

The "Favorite Prescription" is the only known medicine in the world that relieves parturition of its perils to both mother and child, and makes the coming of baby free from danger and almost wholly painless, while it so strengthens and prepares the mother's system for this trying ordeal as to greatly shorten labor and the period of confinement as well.

Every prospective mother should, therefore, commence early during the period of gestation to fortify and prepare her system for the trying ordeal of delivery by the regular use of Dr. Pierce's Favorite Prescription, which exercises a salutary influence over that condition and the function of parturition which can not be realized from any other medicine extant. Thereby danger to both mother and child is banished, nearly all the pain and suffering are avoided, recovery after confinement is much more speedy, and an abundant secretion of nourishment for the child is promoted. The wonder-working "Favorite Prescription" imparts health and strength to the whole system and especially to the organs distinctly feminine. Not only for prospective mothers but for nursing ones as well and for feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon.

The only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies—is Dr. Pierce's Favorite Prescription. It can not do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

It will cure any derangement of the distinctly feminine organism. It is absolutely certain. There are some who have neglected themselves so long that a complete cure is next to impossible, but even these will find comfort and improved health in the use of the "Favorite Prescription." It has cured hundreds of women who have received no relief whatever from years of treatment with good physicians. Easygoing, over-worked as well as careless and incompetent doctors often make mistakes and treat their women patients for dyspepsia, biliousness, liver, kidney and heart diseases, when the real seat of the trouble is in the organs distinctly feminine, and which Dr. Pierce's Favorite Prescription would promptly cure. This wonderful remedy is absolutely unique in the history of medicine. Such a remedy can be discovered only once. There is nothing in the world like it, nor has there ever been. All good druggists keep it, and no really honest druggist will endeavor to sell you anything else.

When I advertise

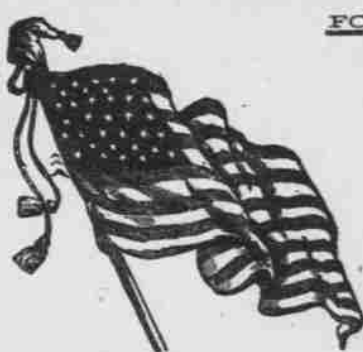

I mean just what I say, and everybody knows it. I want to say now that I have just got in a lot of new Dry Goods that will be sold at prices clear under the bottom. That settles that.

Now About Flour.

I have just got a new car load of as good flour as there is made, which I will sell on the narrowest possible margin. I don't want the earth, but I want your trade and I can make it worth your while to give it to me.

Address all orders to

THE IOLA REGISTER.

Write your name and address upon a postal card, send it to Geo. W. Rest, Tribune Building New York City, and a sample copy of THE NEW YORK WEEKLY TRIBUNE will be mailed to you.

Be careful, however, to see that you get what you want and not some worthless, harmful imitation or substitute.

Any woman, anywhere, who is tired of suffering, tired of doctoring or tired of life, who will write to Dr. Pierce, or to the World's Dispensary Medical Association, of Buffalo, N. Y., of which he is President, will receive, free of charge, good, sound professional advice, that will enable her to cure herself at home (if her case is curable) pleasantly, painlessly, permanently, and this, too, without having to undergo the trying ordeal of "examinations" and the stereotyped and dreaded treatment by "local applications."

All such correspondence is treated in the strictest confidence by Dr. Pierce, whose records of over a quarter of a million cases treated during his past thirty years' experience, show that there are not three incurable cases in a hundred. Every woman will be healthier and happier for following the friendly, practical, fatherly counsel contained in Dr. Pierce's great universal doctor book, "The People's Common Sense Medical Adviser." It is the most comprehensive medical work, in one volume, in the English language, and has enjoyed the greatest sale of any book published in this country. It contains 1,008 pages fully illustrated, 680,000 have been sold at one dollar and a half { COUPON } each, bound in cloth. { No. 687. } The profits of this enormous sale are now used in printing half a million free copies, bound in strong manilla paper covers. To get one, you have only to send the above little COUPON NUMBER and twenty-one one-cent stamps (to pay cost of mailing only) to World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

Over ninety pages of this great work are devoted to the consideration of diseases peculiar to women. Successful means of home-treatment are therein suggested, making it unnecessary to employ a physician, or to submit to his "examinations," and the stereotyped but generally useless "local treatment."

If French cloth-covered, embossed and gold stamped covers are desired, send ten cents extra—thirty-one cents in all, to cover only the postage and the extra cost of that more durable and beautiful style of binding. Send now, before all are given away.
